**Application to annex and therefore amend the district boundaries of  
Thunderbird Fire District**

Arizona Revised Statute 48-262, Subsection I, gives a Fire District the authority to amend its boundaries upon written request of any property owner whose land is adjacent to the boundaries of the current Fire District. By completing this form and signing, you are providing a written request to be included within the boundaries of the Thunderbird Fire District.

The request to be included within the boundaries of the Thunderbird Fire District is with the understanding that your property will be included with the condition that it borders the current Fire District. If your property does not currently border the Fire District, it will be included within the district once the property becomes adjacent to the Fire District. That will most likely occur once other requests or petitions cause the Fire District to border your property and amend the Fire District.

Please complete the following, sign and return to the Thunderbird Fire District. The information required on this form can be found on your Pinal County Tax Statement.
